August 20, 2004

WEST VIRGINIA BULLETIN NO. WV300-4-16

SUBJECT: LTP - WV 2004 Allocations

Purpose: To provide FY 2004 AMA Initial Allocations

Expiration Date: This bulletin expires December 31, 2004

The attached list shows the FY-04 AMA applications approved for funding. These are the same as in Butch Woodson's e-mail to you dated August 5, 2004. Applications have been selected for funding based on the ranking points and the AMA dollars available. It is critical that contracts be developed within the estimated costs, since nearly all of the AMA funds had to be committed immediately based on the estimated costs, due to the limited time for contract development. Approvals for contract price increases will only be approved by Jim Piper or Butch Woodson if additional funds become available from NHQ, or if applicants cancel and free up funding. AMA contracts will be developed in Toolkit and uploaded to ProTracts.

We will handle the FY2004 contracts as we have in the past. Prepare the contract folders (1-Field Office, 1-State Office, 1-participant) and send the State Office copy and all originally signed CCC-1200's to Butch Woodson for contract approval as you complete each contract. Do not "batch" contracts and send in several at a time. The folders will be reviewed and the contract signed if the folder is correct. Butch will send the signed CCC-1200's back to you, and will record the contract approval in ProTracts. Field Offices maintain the official NRCS contract folder, so it is important that you properly file all contract information in the folder. AMA contracts need to be completed and sent to Butch Woodson for approval by August 31, as you were previously advised. Please refer to WV Bulletins 300-4-11 and 300-4-12, and the AMA Manual for additional guidance. The current AMA Manual is dated May, 2001, and is available on-line.

Under Manure Transfer, litter is to be delivered by the end of September and applied during the current growing season. For extended grazing, litter must be applied before the end of August. Follow the NRCS Standards for Prescribed Grazing and Nutrient Management. It will be necessary to schedule most of the litter transfer in future years in the contracts.

Carla Hardy, with the WV Conservation Agency, has been preparing a list of producers and interested haulers to assist the program to run more smoothly. If a participant wants to have litter delivered this year, one of the following must happen:

- (1) The contract is prepared, reviewed and signed, by NRCS, prior to the end of August 2004.
- (2) An applicant can request a waiver, in writing, from the State Conservationist, to make preparations for litter delivery prior to the signing of a contract (This may be especially necessary in order to apply litter for extended grazing this winter). Historically, not all approved applications have become contracts, so it is important that the applicant understand that if the application is not approved for any reason, NRCS will not cost share on the hauling of the litter. The applicant should not make any arrangements until waiver approval from the State Conservationist is received.

I encourage ASTC-FO's and DC's to share this notice with LWG's members in order to keep them informed of AMA activities. If you have any questions, please contact Jim Piper at (304) 284-7543 or Butch Woodson at (304) 284-7583.

Thanks to each of you for your efforts on the Farm Bill programs this year.

/s/ Herbert G. Andrick, acting for

LILLIAN V. WOODS
State Conservationist

REQUEST FOR WAIVER TO START A PRACTICE BEFORE CONTRACT APPROVAL

I,	, am interested in receiving cost share								
sharing through the AMA pro									
My meritorious reasons for t	this request are as follows:								
contract and that I am finanthis practice. Should I quali	not increase my chances for receiving a acially responsible for all expenses incurred on ify for a contract, receive and sign one, then red to submit any bills for this practice								
	waiver that I will not be eligible to receive act is not approved, or (2) The practice does and Specifications.
